THE PACIFIC MAIL PLUNDERERS.

One of the most commendable acts of the expiring Congress was the resolution to substantially punish the lobby agents who engineered the Pacific Mail Steamship subsidy. All the evidence taken by the Congressional Committee is to be turned over to the United States District Attorney for the prosecution of Hon. Wm. S. King, late postmaster of the House of Representatives, and Hon. John G. Schumaker, a member of Congress from New York. Also, that all newspaper correspondents who received money from the agents of the steamship company are to be deprived of their seats in the reporter's gallery and receive the censure of Congress. The parties to be prosecuted, King and Schumaker, are supposed to have received about half a million dollars for their services in bribing or influencing the action of Congress in obtaining a large subsidy for the Pacific Mail corporation. Thus far King has evaded the attempt to arrest him. He is a member elect of the next Congress, but it is hardly probable that he will take his seat. It is to be hoped that both King and Schumaker will be punished. Congressmen should be above plundering the Government—which is simply the treasurer of the people.

THE SITUATION.

From the Gold Hill News, of Thursday evening last, we extract the annexed information relative to mines and stocks on the Comstock:

The revival in stocks has continued during the past week, based not only upon the continued improvement in the great bonanza at the north end of the Comstock, melting the Omine, but also in other less important mines along the line. The Globe Consolidated a very fine and valuable ledge, struck since our last report, which is evidently the same as that of the Rock Island. The Justice mine is getting into very effective working shape and just opened out its 800-foot level beneath the fine ore development found in the 400-foot level, and which is apparently the top of a bonanza. It should be found at the lower level, and it is reasonable to suppose that it will prove of great value at that point. The Woodville strike shows continued improvement and a compromise is reported as having made between that and the Justice Company, to the advantage of both parties. Work is actively going ahead in all directions from away of Cedar Hill to beyond Carson River, and along the ravine toward Carson City, following any direction the great Comstock is supposed to have taken. Great confidence in future and deep developments is shown by the general disposition of companies in the American flat section to erect machinery of the best and most powerful description, as in the case of the Baltimore Consolidated, Florida, Georgia and others. The Caledonia is also showing good practical sense in the commencement of a new shaft 2000 feet east of their present workings.

There will be a meeting of the stockholders of the Globe Consolidated Mining Company on the 8th of April, to consider a proposition to increase the capital from \$3,800,000 to \$3,000,000 shares to \$7,600,000 in 76,000 shares. The capital has already been increased once by a consolidation of claims.

A MOVEMENT is on foot among the citizens to have the town of Truckee incorporated. The basis of the arguments in favor of such a move is chiefly the necessity of better protection against fire, and more stringent regulations relative to encroachments upon land set apart for street purposes.

SENATOR JONES, is represented as being opposed to the third term, and his man for President is Bristow, of Kentucky.

NO MORE MINERS WANTED.

The Virginia City Enterprise says "the late wonderful developments on the Comstock, which have been elaborately noted by every news journal in the United States and Europe, are making Storey County a central point of attraction, and bringing laborers here from almost every State in the Union. The opening of the mines, the construction of mills, and the consequent revival of prospecting in new and abandoned localities, have given employment to hundreds of additional laborers; but the work cannot be provided for the armies of unskilled workmen now pouring in upon us, and journals everywhere are requested to make a note of the fact. Mining superintendents inform us that hundreds of applications for work are made to them daily, principally by men fresh from the Eastern States and California and knowing nothing of underground mining. Were additional miners required, these new recruits would not be the material for which they could be profitably selected, for mining in the lower levels of the Comstock has become a skilled pursuit. Sometimes, in cases of destitution, light labor on the surface is provided temporarily by charitable superintendents, but work cannot be found for the mass of applicants daily besieging our mines and mills. California laborers should remain where they are, and those coming from the East will save time, money and disappointment by seeking employment in the Eastern counties of the State, or in the agricultural districts of California.

GREAT RAILROAD PROJECT REVIVED

A large meeting of the business people of Boston was held in that city last week, to secure increased railroad communication with the coal fields of Pennsylvania and the great West, by the completion of the New York and New England Railroad, via Blackstone and Willimantic, and the building of a bridge across the Housatonic river at Poughkeepsie, New York. The committee previously appointed to investigate the matter, made a long and exhaustive report, which was adopted. The report recommends the completion of the required twelve miles of the New York and New England Railroad to Poughkeepsie, and the construction of a bridge over the Hudson at an estimated cost of \$3,500,000. It is thought the railway traffic will pay twelve per cent. interest on this costly bridge. The report advances the opinion that by this route coal can be brought to Boston and sold at two dollars per ton cheaper than at present. This important project has long been discussed. We hope it will become a practical fact within a few years.

A NASHVILLE (Tennessee) special says the State Senate Tuesday adopted a resolution to appoint a committee to fully investigate the charges that Senator Andrew Johnson bought the votes of nine members of the Legislature from Shelby County.

SENATOR BOOTH declines to be interviewed in relation to matters of a political character affecting any subject before the Senate at this time. Any rumor of what he proposes to do may be set down as mere conjecture.

FACTS ABOUT THE BIBLE.—A prisoner condemned to solitary confinement obtained a copy of the Bible, and, by three years careful study, obtained the following facts:—The Bible contains 5,686,483 letters, 773,692 words, 31,173 verses, 1,189 chapters, and 66 books. The word "and" occurs 46,377 times. The word Lord occurs 1,855 times. The word reverend occurs but once, which is in the 9th verse of the 11th Psalm. The 21st verse of the 7th chapter of Ezra contains all the letters of the alphabet except the letter J. The first chapter to read is the 9th chapter of the Acts of the apostles.

EASTERN DISPATCHES!

In the Negative.

New York, March 12.

The standing Committee of the Diocese of New York records its vote in the negative on the confirmation of De Koven, as Bishop of Illinois and Dr. Daggar, as Bishop of Southern Ohio. The discussion was spirited and lasted till a late hour.

Sudden Death.

Detroit, March 12.

Judge John W. Longyear, of the United States District Court, died suddenly about 12 o'clock last night.

Sheridan—The Prince Imperial—Etc. New York, March 12.

Lieutenant-General Sheridan arrived here last night from Washington and will leave this morning for Chicago. He will go from Chicago in a few days to Leavenworth and proceed thence to New Orleans, where he expects to arrive in about two weeks from date.

A London letter states the banquet to the Prince Imperial at Woolwich has given rise to a good deal of criticism both here and in France. The commander of the garrison, who presided, made an exceedingly fulsome speech of the Prince and even went so far as to express the hope that the swords of England might one day be at his service. It is understood the Prince is to be attached to the Staff of the Duke of Cambridge.

Ex-Empress Eugenie has, it is said, just contracted another private loan.

The Black Hills—Pork.

Chicago, March 12.

There is considerable excitement among a large number of unemployed men in this city over proposed expeditions to the Black Hills and dis-patches from Sioux City, St. Paul, and other places, nearer the Hills, report parties forming to go to the mines. Meanwhile General Ord, at Omaha, has issued orders directing troops to occupy the mining district, dividing into small camps, and employing a sufficient number of Indian runners to preclude the possibility of persons entering the Territory without being discovered. Whenever found they will be quietly escorted from the Territory. A Washington special reiterates that the Government is fully determined to prevent any incursions into the Black Hills country and parties fitting out expeditions are warned that they will only bring trouble upon themselves.

Complete statistics of pork packing at this point the past season show a total of 1,600,343 hogs packed, an increase of 179,324 over last year.

WESTERN DISPATCHES!

(SPECIAL TO THE JOURNAL.)

PACIFIC COAST.

Steamer Arrival—Generous.

SAN FRANCISCO, March 12.

The Pacific Mail Steamship, Constitution, from Panama and way ports, just arrived.

General Brisbin, U. S. A., who recently arrived here from Omaha to solicit assistance for sufferers of Kansas and Nebraska, by grasshoppers, is meeting with gratifying success. At the meeting of the Board of Brokers to-day \$10,000 was subscribed to relieve them. General Brisbin will address the Chamber of Commerce to-morrow when a handsome addition is expected.
